MAY 9 1943

ROGERS, LAWLER, LUTZ...
WILL THERE SOON BE "MOM'S" GIRLS?

MOTHER'S DAY EVERY DAY

Mrs. Clara Burge, senior hostess of FSA's local servicemen's club (also sponsored locally as TILLAMOOK SERVICEMEN'S CLUB), generally known to her "boys" as "MOM", says "Sometimes 'Skipper'. I also get 'CAPTAIN' from the Army."

Asked if she has any children of her own, she frowned slightly. "Of course. They're ALL my own...Oh, I do have a girl...quite a girl. "Noting HER picture on the mantel, your reporter agreed, adding, "Yes, right pert." "Oh my yes," says "MOM", "our only chick." Yep. A good sport. A good...."MOM".

NAST proudly points at the following May 1 promotions, advancements. Joins the Captain in extending hearty congratulations to:

Lt. Comdr. William J. Rook from Lieut.
Lt.(jg) Robert T. Dondero from Ensign.
Lt.(jg) Edward A. Supple from Ensign.
Lt.(jg) Joseph P. Cummings from Ensign.

Lynskey, Paul E. CWT(AA) from WTlc.
Lucksinger, Roy P. CCM(AA) from CMlc.
Olney, Walter W. Cox from Slc.
Johnson, E.L. AEM2c from EM2c.
Workman, Wesley W. MoMM2c from MM2c.
Lundstrom, Oscar M. MM2c from Flc.
Cascio, Vincent H. SC1c from SC2c.
Grasser, Elgin M. SC2c from SC3c.
Noyes, Clinton A. SC2c from SC3c.
Beynon, Paul R. PhM2c from PhM3c.
Papiez, Stephen R. CM2c from CM3c.
Bowen, Lester G. SK3c from Slc.
Manson, Raymond A., Jr. SK3c from Slc.
Sheridan, Joseph F. SK3c from Slc.

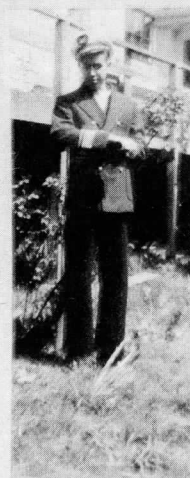

Your Government has made it possible for every man in the Service to obtain a \$10,000 life insurance policy without restrictions as to residence, travel, occupation or military or naval service. If you did not apply for this government insurance when you first entered the service or if you did not apply for the maximum available, you may do so NOW without a medical examination.

National Service Life Insurance is issued on the five-year term plan with the privilege of converting after one year to permanent insurance on the ordinary life, 20-payment life or 30-payment life plan. The term policy will expire at the end of the five-year period unless exchanged for another policy on or before the expiration date.

The policy contains a clause which provides that payment of premiums will be waived during continuous total disability after it has existed for six consecutive months. The face amount of the policy will not be decreased nor will any deduction be made in the final settlement because of premiums having been waived during disability.

Payment of the insurance at the death of the insured is made to the beneficiary in the form of a monthly income. A beneficiary under 30 years of age will receive a monthly income of \$5.51 for each thousand of insurance for 20 years. A beneficiary 30 years of age or over, when the first payment is made, will receive a monthly income for life. The amount of this monthly income will depend upon the exact age of the beneficiary at the death of the insured. For example, a beneficiary 35 years of age would receive \$4.20 per thousand of insurance while a beneficiary 50 years of age would receive \$5.39 per thousand.

All Navy personnel is urged to exercise their right to obtain the maximum insurance at this time. You may obtain additional information and application forms from the Insurance Officer.

DOUBLE HEALTHSTEP

Now that we've seen the sun again....it is well, nostalgically, to remember when....

A ferryboat plied the street between Number One Barracks and the Messhall. The street was then known as Tillamook Tideflat. One day the food supply ran out. The Hardy and Wily cooks dropped cod line over the side at high tide, then dug clams at low tide to provide all hands with a seafood dinner.

Each sailor aboard carried a small pack on his back at all times. Whenever he stepped off the board walk and sank into the mud over his head, he released a marker buoy and was rescued.

One sailor - "Birdog" Bergfalk to be exact - returned from a liberty one night and stepped off the road. The Shore Patrol picked him up the next night for overleave when he floated to the surface at the Smokehouse in Tillamook.

Frogs were so plentiful hereabouts that "frog parties" were held at least once a week. Several of the best swimmers were chosen and, safely secured in breeches buoys, they would roam the swamps rounding up the frogs towards the galley. There the amphibians would be captured and later served as the piece de resistance at the evening meal.

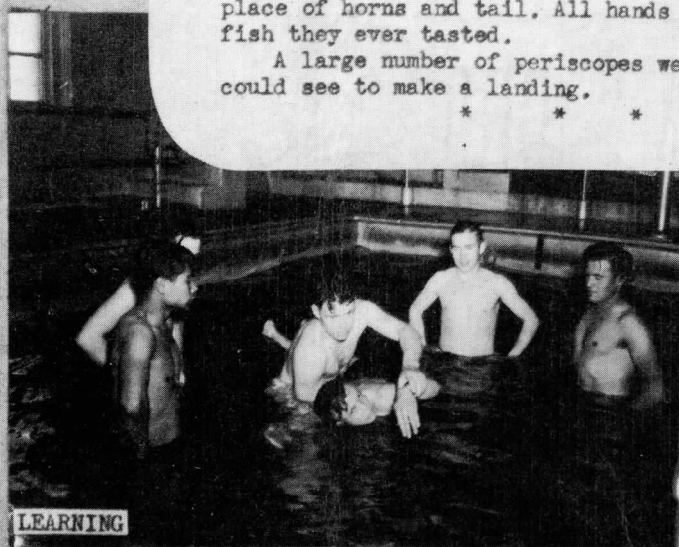

A new draft of men arrived late one night and were berthed in Barracks Two. The next morning, at reveille, when they peered out the ports, they became violently seasick.... They thought they had been shipped out to sea....

A special watch was maintained at all times to keep seaplanes from landing here with retracted landing gear.

One cow, left on the reservation by previous tenants, couldn't get out. When later captured, it had grown fins in place of horns and tail. All hands remarked it was the best fish they ever tasted.

A large number of periscopes were requested so the blimps could see to make a landing.

NASTOPICS

Station crew members are leading Squadron personnel in the strength tests conducted by the Welfare Office under the direction of the Chief Specialists. Of 70 men tested for the Station an average of 260 was reached to 234 for the Squadron. The examinations will be used as a basis for determining future progress of personnel in physical development. It consists of four events - chinning on the horizontal bar, standing broad jump, push ups and body levers.

Naval Air Station again makes history. First road show in the ken of the earliest settler is scheduled May 17, courtesy Shell Oil Company. Features Patricia Lynn, warbler and mistress of C; Johnny O'Brien, harmonica note-coaxer; Lloyd Simpson, pianist; Phyllisita, lady ventriloquist and "Gabby" Redwood; Bert Easley, slightly tipsy trixter.

Performance is contingent upon completion of new Recreation Hall. If hall is complete, one show will be given starting at 1930. If held in Number Two Barracks, two shows planned - 1900 and 2045.

May 11-12 - "Tin Pan Alley" (Alice Faye, Betty Grable).

May 18-19 - "Sun Valley Serenade" (Sonja Henie).

Liberty bus leaves Air Station at 1315 Sundays to Alderbrook Golf Club. Returns about 1730. Personnel interested in golf tournament see CSp Bill Welty.

When all Navy personnel on board has learned to swim, an organized program of life saving and aquatic functions is planned by the Welfare Officer. "Learn to swim - save self and/or shipmate."

Last issue's pinup gal - Veronica Lake...We're telling YOU!

Rumor has it that a certain young Station jaygee is offering a reward for the names of unidentified flower-sending admirers.

AIRSHIPRON 33

Any social problems may be brought before the open Forum conducted daily, weekly, and as occurring, which is whenever more than one person gathers in Room 208. The SQUADRON "BRIDGE" GANG must have become inoculated with a little of the "Tilly" Breeze.....

Flash - congrats and all that sort of thing to the dashing Squadron seaman that soon will enter the FA(A) Class. Another 22 bucks that can't be spent for shines, wines, etc.-----This time, SHAFFER, J. E., S2c, is taking the leap.

At long last, "SEAMAN RUFUS" WHITENER has salted the old Eagle's tail feathers, or at any rate, now sports a bird. Boy, Oh Boy, if the girl in at the "BLACK CAT" would only love him, he'd be a real catch.

Navy war bond purchases total \$17,759,915 in March.

Share your rides to Portland....or anywhere.

Softball players will be in an organized league soon. CSp Howard Lehwald is receiving entries for a circuit consisting of each watch, each division. Managers sign players now!

Tillamook High School's baseball team is "all square" with Air Station tossers. The Preps beat the Station, 4-2 twice, lost to the Squadron, 11-1, and to the Station, 14-2.

Softball players will be in an organized league soon. CSp Howard Lehwald is receiving entries for a circuit consisting of each watch, each division. Managers sign up players, now.

CBM Bill McNeill, Air Station Sheriff, and Harry Brown, S1c, lead the "barnyard sailors" on the horseshoe courts.

to you and here's hoping you soon get another "Roost" for its other leg.

VRBONCIC, GRAY, and "BIG BOY" LIEPOLT are also now nicking the pay line for more of "Uncle's dough. Vrboncic, "Leetle Mike", is now at Moffett taking the AP course, so we'll have to wait for the "GEEDUNKS" and also a fix on those new wings he'll have when he graduates.

We understand that the SHIP'S SERVICE LAUNDRY is really appreciated by all hands except one. "SPIT SHINE - SCRUB YORE BLUES - GUARANTEED" BERGFALK has now retired from the scene, but was last seen casting envious eyes on several of the Jalopies..... wonder if HABBERSETT will loan him his ash can during "Gabby's" absence at school?

School days are really here now, and in the vein of our opposite number across the hall, "RINGER" BELL, all hands and all the tikes are industrially inclined on the upward track...even after trying to look this up in the dictionary, we think it may mean that all, especially the Seaman, are squeezing the heck out of their pencils and utilizing those additional muscles required for a frown.

Before signing off in the sunshine, yeh, all thirty minutes of it, the white hats are very welcome, but how's about a bit of a class on some of the salty wings in them....

Sending thirty-four men away to school has made quite a bit of a gap, but 99 44/100 per cent of the single guys may still be reached on Liberty at either the Smoke House or the Dawn Club (Note - Advertisement not paid for - but maybe something can be worked out).

COMMENDATIONS::::: "DAN MOSTEW" Poem in the "OUR NAVY". Footprints on the overhead...REED, SMlc, for his instructing and his Maa-ing. Tain't too safe to ask the leading SM yet about the finer points of sheepherding...The Station on dress review last Saturday, really looked good, fellows.

..... learning

The Squadron regrets to lose LIEUTENANT ODELL to a new assignment. But here's luck, Burr, and don't forget us.

LIEUTENANT-"I DON'T WANNA SING"-HILL is reported to be standing night watches on his new car.

Operations port side is a better ball team by 16 to 6, largely due to the heavy hitting of Larry Clayton, AMM2c.

"Embees" (Muscle-benders) are planning competition between Station and Squadron personnel in boxing and wrestling as soon as the new Recreation Hall is completed. Break out the linement, Doc!

Honors for being the first grandfather while on duty at the Air Station go to CCStd Frank Davis. His daughter, Mrs. Norman Richard McNulty of Olympia, Wash., caused "Grandpop's" brass buttons to pop. The new member of the family is Norman Richard McNulty, Jr.

Speaking of matrimony, has anyone mentioned our "CONFIDENTIAL CANDLELIGHTER?"

Received from Mrs. Gordon Law, one Gordon Morrison Law, weight 6 pounds, 9 1/2 ounces. This was the memorandum signed by Gordon Law, SK2c, of the Disbursing Office and dated April 30, 1943. There was no witnessing officer.

SHIP'S SERVICE: Opening in near future for soda clerks, one soda fountain manager, and one bookkeeper-typist, two store clerks. Apply to Ensign Joseph Ratner, 106 Administration Bldg.

Prices slashed on SWEET SPECIAL at Ship's Service Store on a POWER-fully good candy bar.

"BASE, BASE, BASE!" It's absolutely WRONG to refer to NAS Tillamook as a BASE, for it is officially United States Naval Air STATION.

ENSIGNS RICHARD B. SHERIDAN, JOSEPH N. MONAGHAN and BERNARD W. THOMAS, are looking forward to plenty of salt in their whiskers. Among the first to arrive last Fall for duty at the station they are now preparing to leave. ARMED GUARD training for Thomas. LOCAL DEFENSE for the others...then on out. We shall really miss them.

THE Navy's seven-sea fighting force will be in active service before the end of 1945 fully 2 years ahead of schedule, Sect'y of the Navy Frank Knox revealed in his last annual report to the President.

This means that Training and selection of men to fill the increasing number of petty officer billets required in the expanding Navy is an urgent and a stupendous undertaking. For this reason Navy Training Course Books were prepared and issued to the personnel in order that the process of developing individual skill and efficiency may be facilitated and expedited.

The courses are a result of long research and careful planning. In their application they are superior to any other similar publications. A hardy reminder is necessary to guide and orient personnel in navy duties and responsibilities. No man may be recommended for advancement in rating who has not satisfactorily completed a Navy Training Course for the grade or rating to which he desires advancement, provided such course is available.

In the Navy it should never be forgotten that one of the primary attributes of leadership is that the individual be well grounded in the duties of his rating.

Course books are available from the Educational Officer, room 303-AD BLDG. The war won't wait. Nor should you.
